**Service Before Self,  
Excellence in All We Do.**

## We've Been Busy!

Here at SC-872, we have been preparing for our unit inspection! LRS will be shutting down soon to maintain organization while the other squadrons are tidying up for MSgt. Joyce.

## What's Team Squad Up To?

Team Squadron has done multiple color guards in the past month, including for the Wando Preview Day and a Color Guard for Military Ball along with a saber arch for Military Ball. We have also spent quite a bit of time preparing our Drill and Raider Teams for Nationals and our upcoming inspection. We also had one of our marksmanship cadets, C/MSgt Morales-Lear, shoot at the Civilian Marksmanship Program regional championships in Anniston, Alabama.

## Good Work Public Affairs!

Inspection has put a strain on Planning and Historian, both jobs are rushing to ready ourselves for MSgt. Joyce. Planning has been logging flag detail entries while Historian has been handicapped by a lack of ink for our printers. We have a mere week until the big day!

## Logistics Readiness Squadron has been Busy!

In LRS, Admin created the slideshow and script for Warrior Challenge pt 2. Additionally they temporarily stored the items left over from Warrior Challenge before giving them out. We also moved utensils, plates and cups out and into the workroom storing them in a filing cabinet allowing cadets access to utensils during lunch. We are also working on getting another filing cabinet into the workroom that can hold school supplies such as paper and pencils. We will be clearing the Admin of trash and unnecessary stuff. For Supply, we are ordering the last batch of OCPs for juniors and will hang up the OCPs we already have. LRS will be closing down at the end of the last week of February for inspection prep and will only be open for uniform emergencies.

## Flight Squadron

The flights and its respective cadets have been training diligently to prepare for our grand unit inspection. This year our new Sophomore class will be completing the 30 Step Drill Sequence while all other classes will be tested with their wits on AFJROTC

## Well Done Mission Support!

In Mission Support, Morale redid the board to welcome the new staff in a fun way. Next week they are changing the board to welcome MSgt Joyce for Inspection. They also had a movie day this past week. Athletics has been planning the March PTs and inputting the PT test scores of the last PT test. Kitty Hawk has been planning trips to local elementary schools and they went with Recruiting to Cario. JLAB part 2 was held where one of our teams from part one progressed to another round.
